Revised Date May 12, 2004

What is a Home Inspection? -- A home inspection is an objective visual examination of the physical structure and systems of a home, from the roof to the foundation. Having a home inspected is like giving it a physical check-up. If problems or symptoms are found, the inspector may recommend further evaluation. For more information about Home Inspections, visit The American Society for Home Inspectors – <http://www.ashi.com> or The National Association of Home Inspectors, Inc. - <http://www.nahi.org>.
